

Cartella Colori

Colours range - Gammes des couleurs - Farbskala

La vasta gamma di colori a polvere e liquida oltre alla finitura finto legno sono un punto di forza di tutti i profili vetrocamera e stile inglese della Profilglass.

The broad range of powder and liquid colours together with the woodgrain foiling are the strength of all spacer bars and georgian bars produced by Profilglass.

La large gamme de couleurs laqués en poudre et liquide ainsi que la finition imitation bois sont un point de force pour tous les intercalaires et les profilés décoratifs produits par Profilglass.

Die breite Auswahl von Farben in Pulver und flüssig wie auch die Holzdekore ist sicherlich eine der Stärken der Produktion von Abstandhaltern und Sprossen von Profilglass.

Rivestimento in finto legno - Woodgrain foiling

Imitation bois - Holzdekorsprossen

Le barre possono essere rivestite per intero oppure verniciate a polvere e rivestite per metà.

The decorative profiles can be completely foiled or powder coated and half woodgrain foiled.

Les croisillons peuvent être recouvert d'un film PVC imitation bois sur leur deux faces, ou sur une face seulement l'autre étant laqué.

Die Sprossen können ganz foliert werden oder Pulverbeschichtet und zur Hälfte in Holzdekor foliert werden.

I profili decorativi Profilglass vengono verniciati presso l'azienda consociata "Metalgamma" con l'ausilio di un modernissimo impianto. La qualità della verniciatura in termini di spessore e di adesione della vernice è verificata costantemente, come previsto dalle certificazioni ottenute.

The decorative profiles are painted by one of the sister companies, "Metalgamma", using a very modern plant. The quality of the painting in terms of thickness and adhesion of the paint is constantly checked according to the achieved certifications.

Les profilés décoratifs Profilglass sont tous laqués dans une filiale, "Metalgamma", grâce à une installation très moderne. La qualité du laquage en termes d'épaisseur et d'adhésion de la laque est constamment vérifiée, comme le prévoient les certifications obtenues.

Die dekorative Abstandhalter Profilglass werden in der Tochtergesellschaft "Metalgamma" mit der Hilfe von einer hochmodernen Installation lackiert. Die Qualität der Lackierung was die Dicke und Haftung des Lackes angeht, wird ständig geprüft, wie vorgesehen von der erhaltenen Beglaubigungen.
